

Nutrem pilot plant facility site visit

22 May 2019

The IChemE Water Special Interest Group invite you to a tour of the Nutrem plant, followed by a talk from Operations Director Adam White.

NUTREM has been operating successfully at Petersfield wastewater treatment works since September 2014. NUTREM is a complete Biological Nutrient Removing system, incorporating primary and secondary treatment. Results obtained demonstrate the system removing Total Phosphorus down to levels between 0.1 mg/l and 0.3 mg/l from average influent concentration of 5.41mg/l.

Time: 11:00 - 15:00

Location for site visit: Petersfield waste water treatment plant, Durford Road, Petersfield, GU31 4EZ

Location for Q&A session: The Half Moon, 32 London Rd, Petersfield, GU31 4BE

Cost: Water SIG IChemE Member - £50.00
 Non-Water SIG IChemE Member - £60.00
 Non- IChemE Member - £85.00
 Student - £25.00

This event is open to all and all proceeds from the event are used for funding water boxes, sponsorships and other charitable activities of the Water SIG
