

Hull & Humber Annual Dinner – guest speaker biography

Sander van den Ban

Sander van den Ban is the Head of Formulation Sciences for Reckitt Benckiser R&D based at Hull, UK. He holds a masters degree in Chemical Engineering from the University of Delft, the Netherlands and graduated with distinction in the field of explosion science and is a Fellow of the Institute of Chemical Engineers. Sander worked in the Pharmaceutical Industry for over 10 years for GSK and more recently for RB, in various positions in Research and Development, Process Design and Development, Technology Transfer and Manufacturing and Supply and published in areas of QbD and pharmaceutical process design and co-authored a chapter on pharmaceutical inhalation aerosol technology. He is experienced in the development, transfer, and introduction of well understood reliable manufacturing processes for tablet dosage forms from R&D into manufacturing with particular focus on QbD and interaction with regulatory agencies.
