

Help your students...

Discover chemical engineering

Careers information and advice for your students.

What is whynotchemeng?

whynotchemeng is the careers campaign managed by the Institution of Chemical Engineers (IChemE). We provide free careers literature and posters for schools, helping teachers promote chemical engineering as a career to students aged 14-18.

All of our careers literature is available to download at www.whynotchemeng.com

Our campaign

Our main focus is to provide students with the information they need to make an informed career choice. Our website contains everything they need to know about chemical engineering including:

- what chemical engineering is
- what chemical engineers do
- case studies and links to employers
- study information and links to universities
