

# The Collaborator

News from the IChemE Safety Centre | Issue 16 | September 2018

## Welcome

Welcome to the 16<sup>th</sup> issue of the Collaborator. It has been an extremely busy few months with numerous activities, conferences and networking meetings taking place. The membership continues to grow, with Unilever and Chevron joining as operating partners and RiskConsult as an industry partner.

If you have any feedback or comments on the content of this newsletter or are interested in being on the mailing list, please contact me via [safetycentre@icheme.org](mailto:safetycentre@icheme.org)

## What we have been up to...

The second issue of the Safety Lore was released in late June. This tackled key lessons from incidents during maintenance on atmospheric storage tanks. The next issue of the Safety Lore will be released at the end of September. This will focus on failure of flare systems. This will be free to download from the ISC website [www.bit.ly/ISCLore](http://www.bit.ly/ISCLore). It is also available in a podcast and in Spanish. If you have any comments or wish to propose a topic, please contact us at [safetycentre@icheme.org](mailto:safetycentre@icheme.org)

In late June IChemE hosted a very successful Hazards Australasia with keynote speakers from around the world.

Both Zsuzsanna and I kicked off the first IChemE webinar on Six Pillars of Process Safety in August, this is the second series that we have jointly run.

I presented the case study Offshore Platform at the Safer Together event "Drilling and Completions Industry incident review panel" in Brisbane in August.

The AIChE Safety and Health division invited me to speak at their meeting on the work we have done and the work we are currently doing.

Safety Institute of Australia WA branch invited me to discuss how OHS can be leveraged to effectively implement and embed process safety within an organisation.

Zsuzsanna was invited to the International Conference on safety and environment in process and power industry in September in Italy to present on "Do you speak procurement".

Two papers that Zsuzsanna presented at the Hazards28 conference in Edinburgh will be published in two editions of the IChemE Loss Prevention Bulletin.

ISC and the IChemE Safety & Loss Prevention Special Interest group successfully lobbied the UK Health and Safety Executive Board to make the Cullen Report free to all. Both volumes are now available to download <https://bit.ly/2x1Jxm7>

## New Website

We have a new website which will be launched on 5 November 2018, the web address will remain the same [www.ichemesafetycentre.org](http://www.ichemesafetycentre.org)

## Networking

The ISC held a networking event at Hazards Australasia. The networking events are used to engage with members and potential members.

## Key dates coming up

We have some more exciting activities and events coming up in the next few months.

### October

4 – 5, International Nuclear Engineering Conference, Manchester, UK

9 – 10, ESReDA Seminar on Accident Investigation and Learning to improve safety management in complex system: remaining challenges

19, 1<sup>st</sup> Hungarian Disaster Management Conference, Budapest, Hungary

22 – 24, Mary Kay O'Connor Process Safety Symposium, College Station, USA

25, 2<sup>nd</sup> Hungarian Disaster Management Conference, Budapest, Hungary

27 – 28, CGE Risk Network Event, Amsterdam, The Netherlands

29 – 31, XXIX Interamerican Congress of Chemical Engineering, Toronto, Canada

### November

8, IChemE Hull & Humber SIG Ageing Plants Symposium, Hull, UK

20, 3<sup>rd</sup> Hungarian Disaster Management Conference, Budapest, Hungary

29 – ISC Advisory Board meeting, Brisbane

### December

4, UNECE Risk Assessment Seminar, Geneva, Switzerland

6, Hazards Forum, London, UK

Stay safe...
