

IChemE medals and prizes

Guggenheim Medal nomination form

Deadline for submission 31 October 2021

Person nominated	
Company/organisation	
Your name	
Email address	
Telephone	
Company/organisation	
Summary of reasons for nomination	

Please submit your full nomination on the reverse.

You should provide all relevant details and links to references can be included. However please note the judging panel will only assess information provided in this form – any prior knowledge is dis-regarded and they will not undergo any additional research.

Your completed nomination form should be sent to medals@icheme.org

The Medals & Prizes Committee will meet in December to select the winners.

Privacy Policy

Information on how IChemE processes data provided can be found at: www.icheme.org/legal

Please check this box to confirm you have read and agree to this policy.

Reasons for nomination – use a separate sheet if necessary.

Please ensure you cover the following points, which are the criteria against which the nominations will be judged:

1. **Impact** – within and/or outside the field, both in industrial and academic sectors
2. **Originality** – demonstrating the pioneering or advancement of a topic related to Thermodynamics and/or Complex Fluids, which can be quantified in terms of publications, citations, and international standing
3. **Significance** – potential towards achieving the UN sustainable development goals
4. **Influence** – adoption by the Thermodynamics and/or Complex Fluids communities of the advancements enabled by the research advancement.

Be succinct but do include sufficient relevant information for the judges to evaluate the nomination. Judges are not expected to go and research candidates beyond what the nominator has written.
