**Please submit your full nomination on pages two and three.**

You should provide all relevant details and links to references can be included. However please note the judging panel will only assess information provided in this form – any prior knowledge is disregarded and they will not undergo any additional research.

Your completed nomination form should be sent to [medals@icheme.org](mailto:medals@icheme.org)

The Medals & Prizes Committee will meet in December to select the winners.

### Privacy Policy

Information on how IChemE processes data provided can be found at: [www.icheme.org/legal](http://www.icheme.org/legal)

Please check this box to confirm you have read and agree to this policy.

Reasons for nomination.

Please ensure you cover the following specific areas when answering as the nomination will be judged against the criteria as listed below:

1. Sustainability principles
2. Engineering design
3. Sustainability of the design
4. Sustainability metrics
5. Written submission
6. Detailed entry criteria can be found on this link:  
[www.icheme.org/membership/communities/special-interest-groups/sustainability/awards/](http://www.icheme.org/membership/communities/special-interest-groups/sustainability/awards/)

Be succinct but do include sufficient relevant information for the judges to evaluate the nomination. Judges are not expected to research candidates beyond what the nominator has written.
