Get Chartered

6 November 2018

Do you want to gain Chartered Chemical Engineer status in the foreseeable future?

Tyneside Members Group in conjunction with IChemE are organising an evening presentation to provide you with the information, tools and support to make the application process clear and easy to map out for your individual circumstances. The following topics will be discussed:

- requirements for Chartered status, the level and the assessment process
- knowledge and understanding
- professional experience
- report writing guidance
- interview advice
- general tips for success

Take advantage of the opportunity to meet fellow chemical engineers in the area and talk to IChemE.

Already Chartered? We would also like you to attend to share your experience and provide valuable support to engineers in your region. It would also be an opportunity to see how the process may have changed since you applied.

Time: 18:00 - 20:00 BST

Location: 3rd Floor, Merz Court building (Former School of Chem Eng and Advanced Materials), Newcastle University, NE1 7RU

Cost: Free of charge, open to all

Registration: www.icheme.org/tyneside-get-chartered-registration

Webpage: www.icheme.org/tyneside-get-chartered
