

# US Gulf Coast Member Group AGM

29 October 2018

Please join the US Gulf Coast Members Group for their AGM.

The technical portion of the evening will consist of a presentation from Phil Redding on Shell's LNG outlook. This will be followed by a talk from Tom White, the newly elected International VP, about changes at the IChemE following the recent EGM. In addition he will cover the new Congress in which Gulf Coast Committee member Chris McDermott will be representing the US.

After the event, participants will have the opportunity to network and socialise at Lucky's pub nearby.
