About the IChemE Global Awards

Celebrating chemical engineering excellence

Sponsoring the IChemE Global Awards is a powerful opportunity to position your company at the forefront of the chemical and process engineering community. Recognised as the world's most prestigious chemical engineering awards programme, the IChemE Global Awards celebrate innovation, sustainability, and engineering excellence—values that align with forward-thinking organisations.

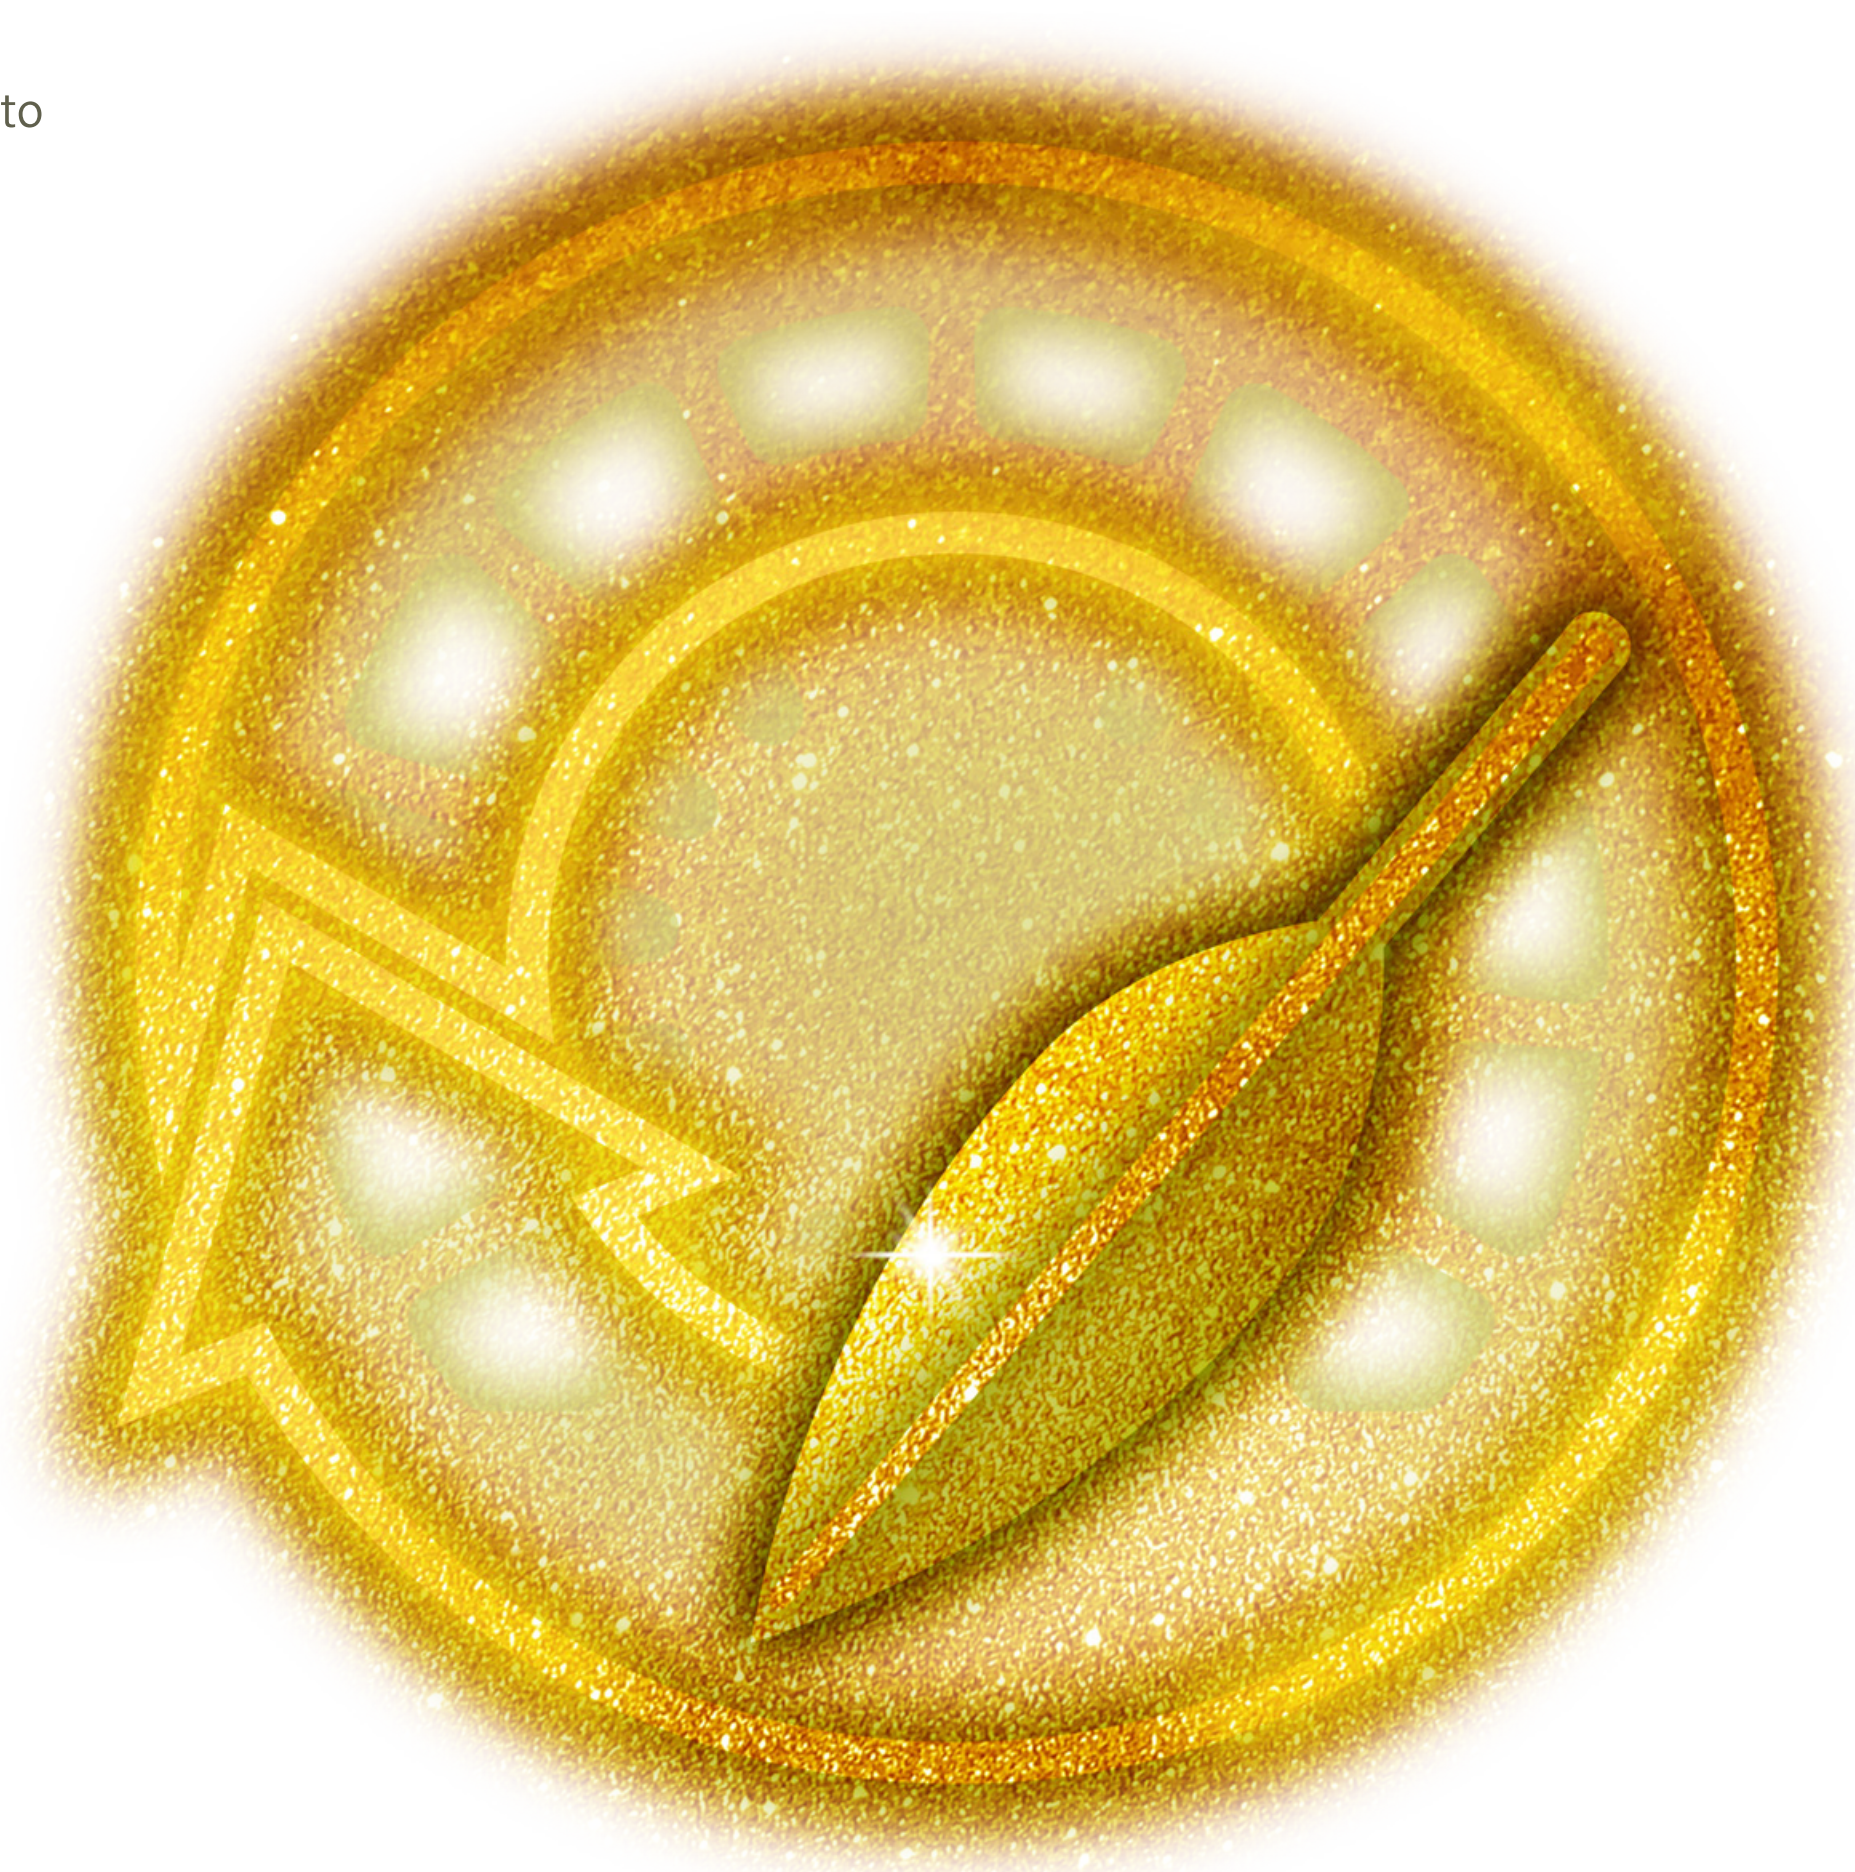

As a sponsor organisation, you will gain visibility among industry leaders, top professionals, and key decision-makers from multinational corporations, research institutions, and groundbreaking startups. Sponsorship also demonstrates your commitment to excellence and corporate social responsibility, helping you attract top talent and new business opportunities.

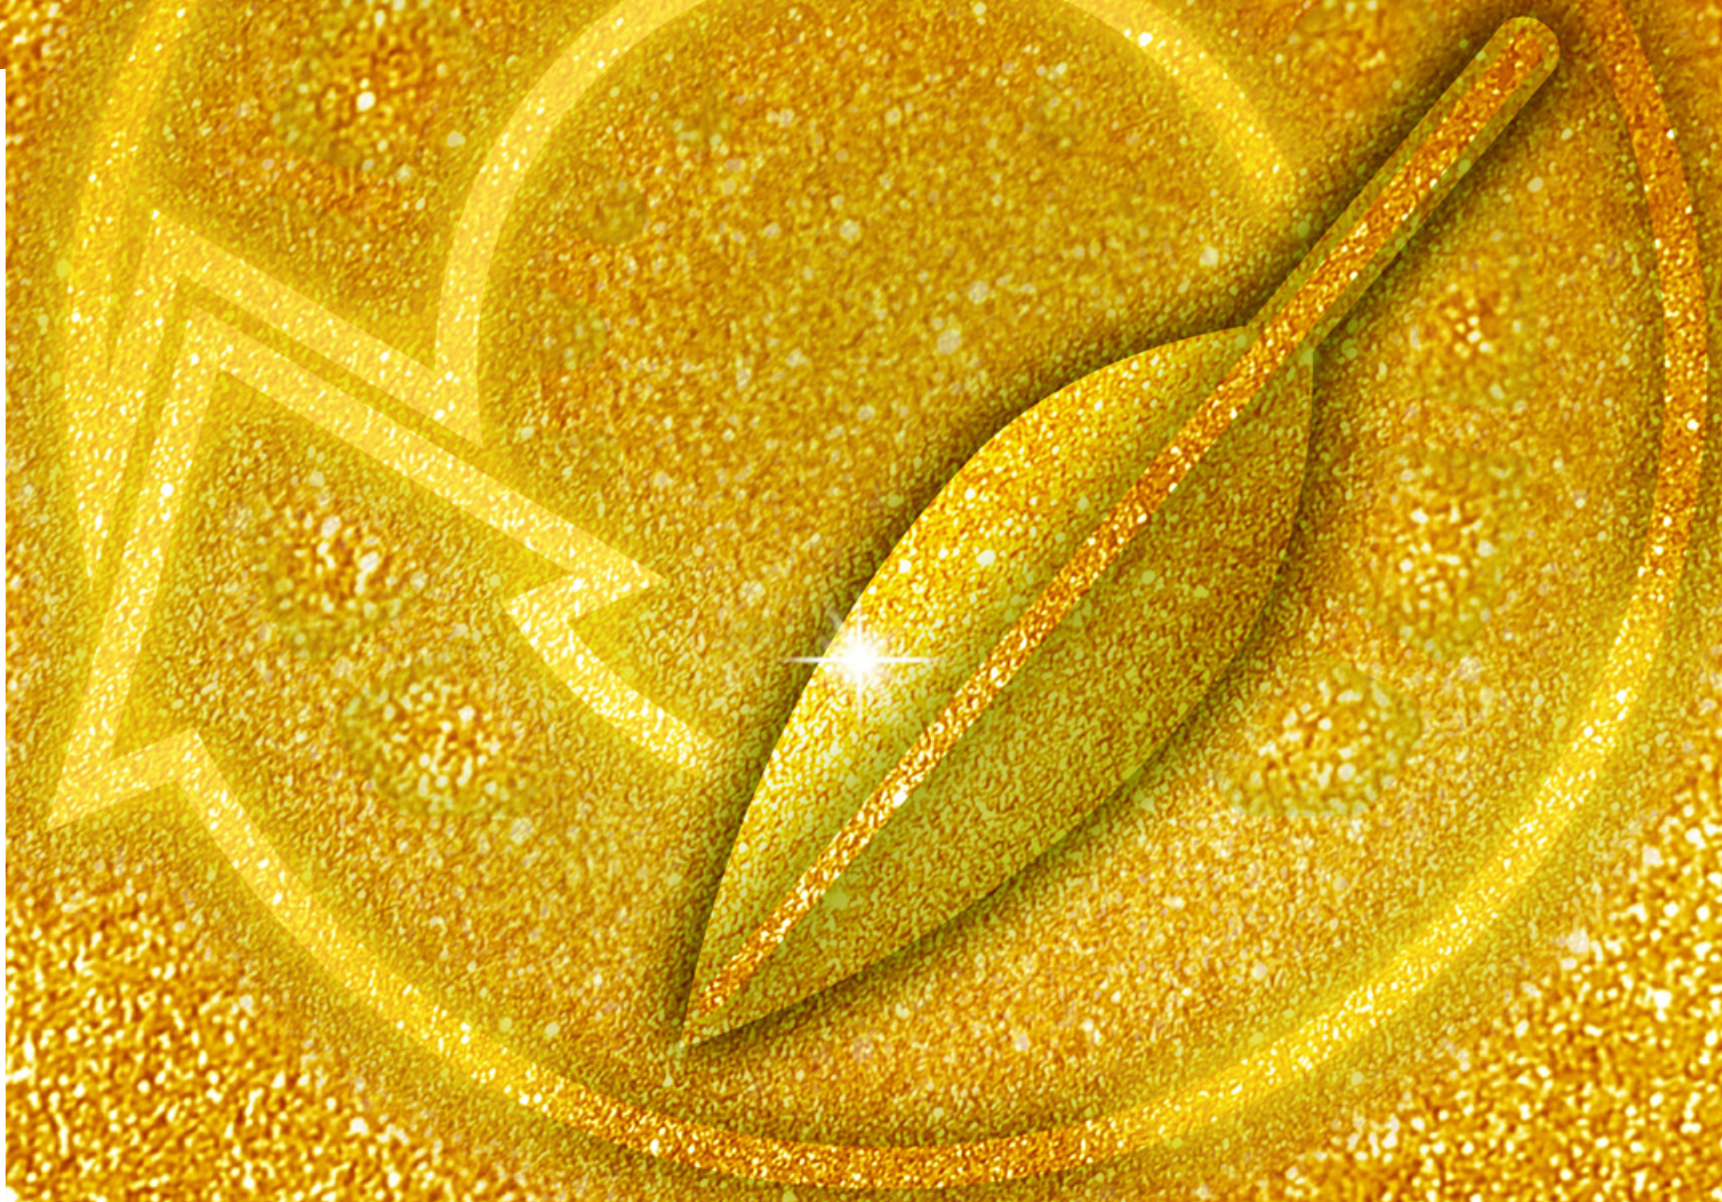

Sponsors will be featured in pre- and post-event publicity and have the chance to take part in our Finalists Showcase afternoon networking event ahead of the IChemE Global Awards Dinner.

Whether you're looking to enhance brand awareness, build strategic partnerships, or support the next generation of innovators, sponsoring the IChemE Global Awards is a smart investment that delivers long-term value.

“Stand out as a champion of chemical engineering excellence and be part of an event that celebrates meaningful progress in the industry.”

Raffaella Ocone, IChemE Deputy President

Award categories

Business Start up

Showcasing innovative start-ups showing creativity, growth, and industry impact; highlighting agile businesses driving meaningful progress and fresh ideas (Company must have been started in the last five years to be eligible).

Digitalisation, AI and Automation

Recognises the best project, process or product to demonstrate excellence in process management and control, computer-aided process design or AI applications.

Energy

Recognises the best project, process or product that demonstrates excellence in the Energy sector, including oil, gas and energy transition, nuclear technology or clean energy.

Excellence in Equity, Diversity and Inclusion

Celebrating outstanding initiatives that advance equity, diversity, and inclusion, creating fairer opportunities, inclusive cultures, and meaningful positive change across communities or workplaces.

Excellence in Knowledge Exchange and Research

Recognises work driving learning, collaboration, and real-world impact through sharing expertise, insights, or best practice across communities or sectors.

Health, Wellbeing and Food

Recognises the best project, process or product to demonstrate chemical engineering excellence in food and drink, pharmaceuticals, palm oil processing, beauty, nutrition and similar fields.

Innovation

Recognises standout innovations delivering clear improvement, efficiency, or impact through a new or enhanced process or product advancing industry practice.

Learning, Development and Education

Recognises the organisation that best demonstrates excellence in the learning and development of staff or education of a wider community. Entries should demonstrate how a skills/knowledge gap has been addressed, how a training programme has had a positive impact on business performance and/or how public perception of chemical engineering has been improved. Includes, but not limited to, company training schemes, ACTS, vocational education support e.g. apprenticeships, mentoring.

Process Safety

Recognises organisations/teams raising standards in safety; covering safety, loss prevention, hazards management and safety innovation.

Responsible Consumption and Production

Recognises excellence in responsible consumption and production including, but not necessarily limited to, particle technology; catalysis and reaction engineering; mining and minerals; fluid mixing; fluid separations.

Sustainable Systems

Recognises the organisation, project, process or product demonstrating excellence in sustainability, environment and clean technology and/or the circular economy.

Water and Sanitation

Recognises the best project, process or product to demonstrate excellence in water, wastewater treatment and/or water management.

Sponsor packages

Category Sponsor

Pre-event

- Logo and company bio featured on event website
- Logo featured on all pre-event materials, including email campaigns, related social posts and display adverts
- Sponsor announcement LinkedIn post
- Sponsor spotlight LinkedIn post (if booked by 30 June)
- Solus email (if booked by 30 June)
- Named in finalist announcement news release

At the Awards – 10 December 2026

- Present the award to the category winner at the Global Awards Dinner with opportunity for short speech (max 1 min*)
- Ten seat table in prime position at the Global Awards Dinner
- Ten invitations to the pre-event drinks reception
- Presence at our networking session on the afternoon of the Awards, with 5-minute* technical talk opportunity
- Logo featured on event collateral, including on-screen graphics and Show Guide brochure
- Spotlight feature in the event Show Guide
- Video interview

Post event

- Named in the post event news releases
- Logo featured on post event winners feature in *The Chemical Engineer*
- Branded photographs (digital copies to use as you wish)

*timings subject to change
