

# AGM and Technical Talk

6 December 2018

Professor Adam Harvey who heads the Process Intensification Network at Newcastle University will explain what process intensification is, why we should be doing it and how it could/should change the process industries.

This will be followed by the 10th Annual General Meeting of IChemE's Scottish Members Group (SMG). In particular, the IChemE SMG is seeking to elect new Committee Members from within our membership, including a new Chair (or co-Chairs) and a new Treasurer.

For information on the committee roles and how to apply, please visit the weblink below.
